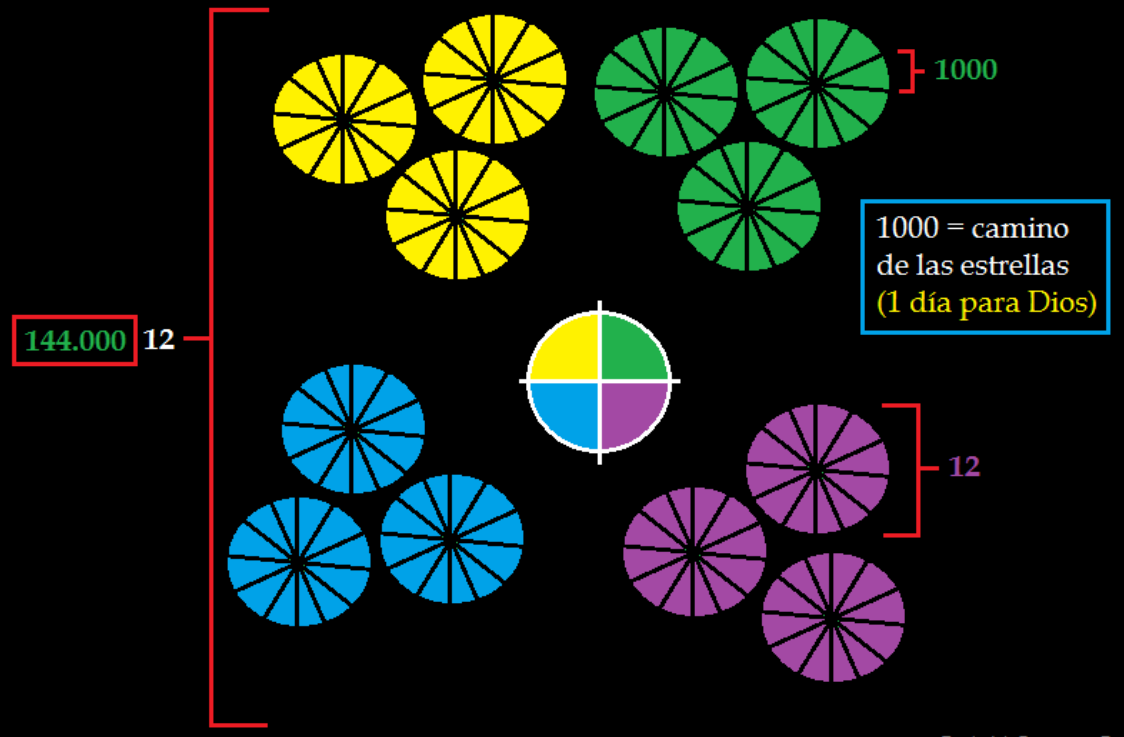
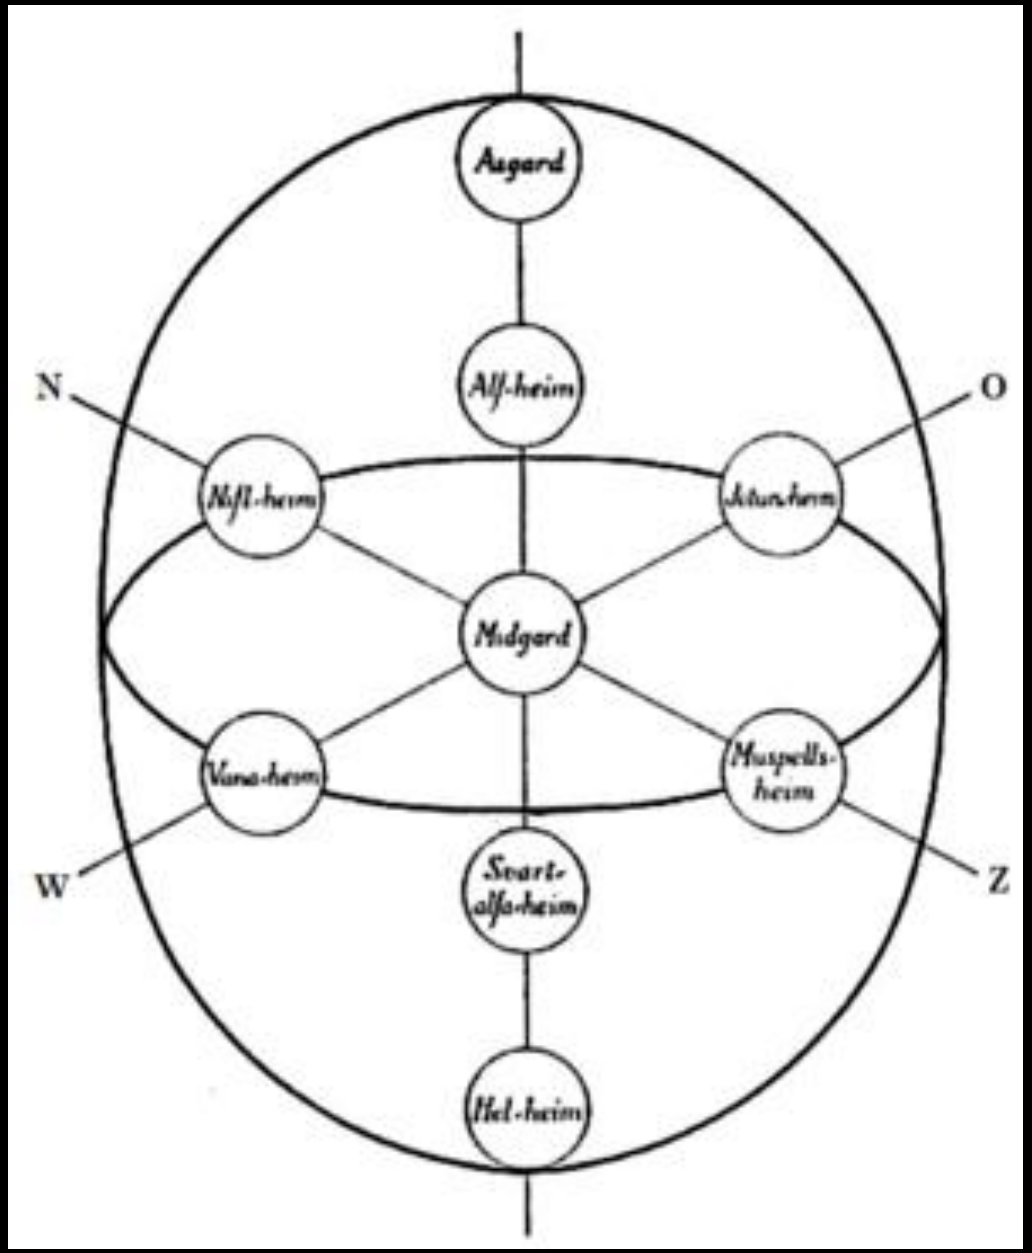
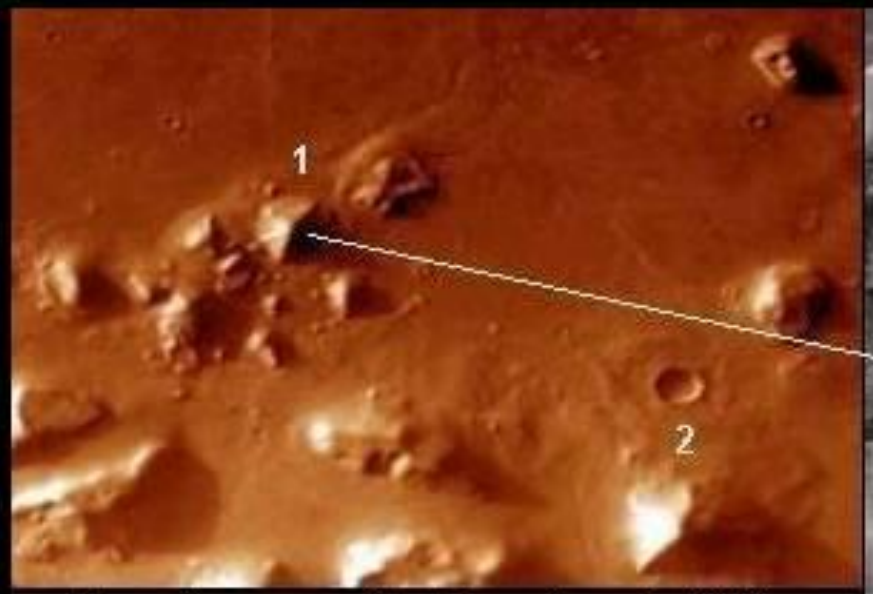
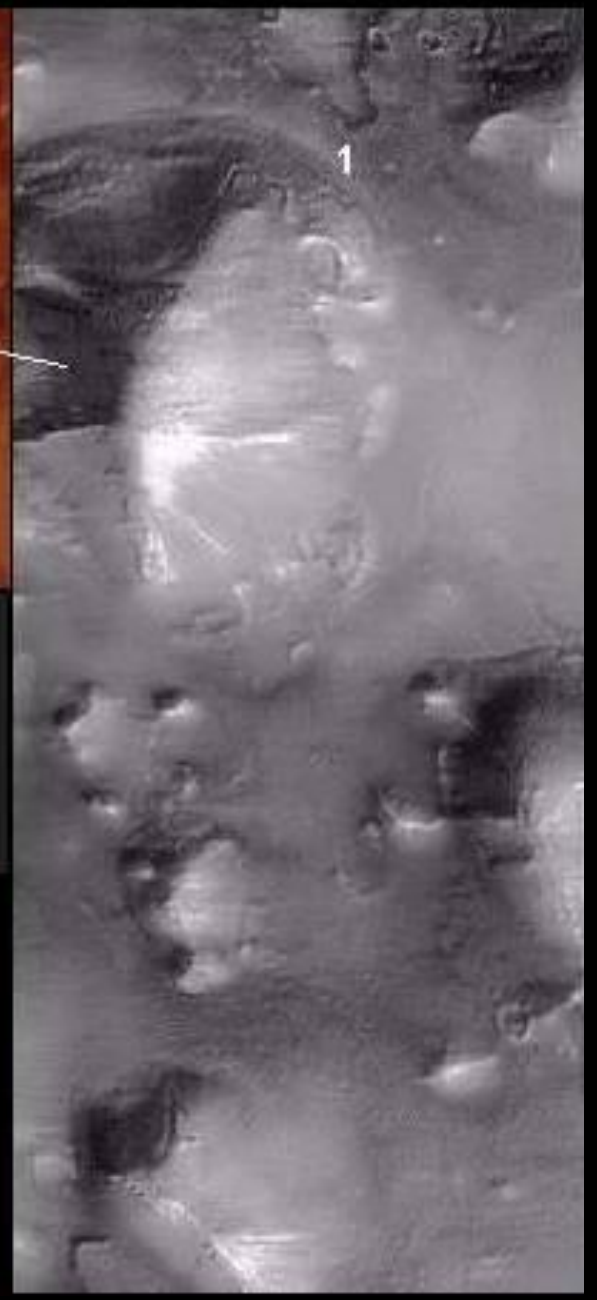
THE PORTALS OF AOR





PYRAMIDAL ZONE OF CYDONIA (MADEIM/MARS)





The red images on the left are from the 1976 Viking Orbitor. (1) NASA reimaged this same region with the Mars Global Surveyor in 1998. The grey strip on the right is the raw image NASA took of this region. The pyramidal formation is clearly similar to the other larger pyramidal structure near by. (2))
